

Meet the Surface Laptop 4

#OriginalByDesign

Do it all with style, speed, and performance

From video calls in your home office to virtual collaboration in your company's hybrid headquarters, your work stands out with Surface Laptop 4. Get it done with more multitasking power and up to 70% more speed than before, significantly longer battery life, and sleek, ultra-thin design.

The most powerful Surface Laptop ever

Performance for multitasking, meetings, and more

More multitasking power than before for everything you do. Run the apps you depend on with improved performance and up to 70% more speed. Cut the background noise – look your best in video calls and be heard clearly.

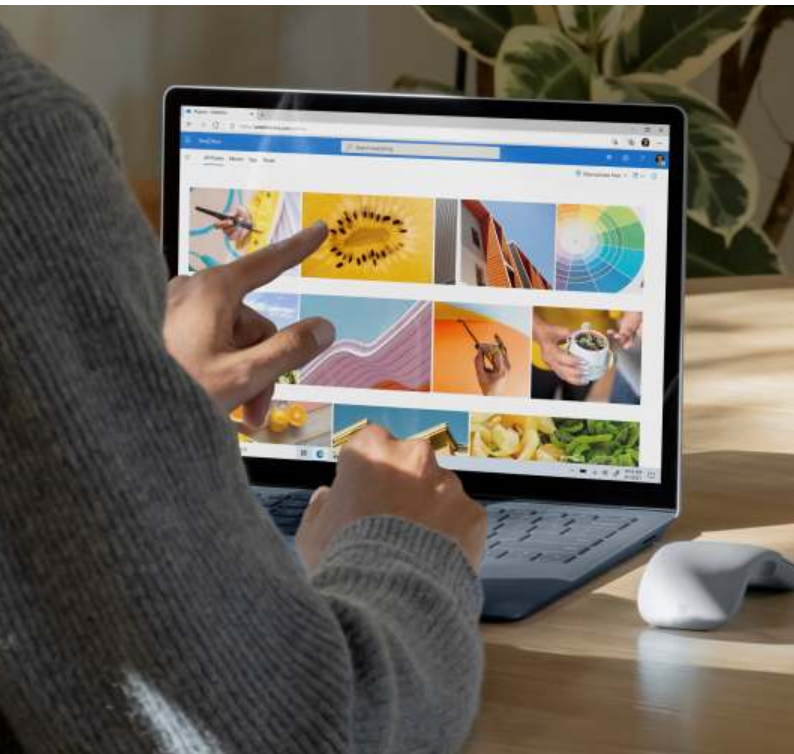

Work your way in style

Surface Laptop 4 is sleek, ultra-thin, and light with a vibrant PixelSense™ touchscreen so responsive you feel like you can reach out and touch your work. Choose from a durable metal or Alcantara® finish, and the size that works for you: 13.5" or 15".

Designed to get it done

Reliable and ready to get to work. Fuel up fast with Fast Charging. Get back to your tasks within seconds of opening the lid. Type more accurately with responsive, backlit keys. And connect all your peripherals with USB-C® and USB-A.

Surface for Business unlocks more value

Give IT peace of mind with removable hard drive.¹ Surface customers save time and money with streamlined deployment, modern device management, and built-in, cloud-powered security.

¹Hard drive is not user removable. Hard drive is only removable by skilled technician following Microsoft provided instructions.

Built to get it done

¹Battery life

- Surface Laptop 4 13.5" with AMD Ryzen™ Microsoft Surface® Edition processor: Up to 19 hours of battery life based on typical Surface device usage. Testing conducted by Microsoft in February 2021 using preproduction software and preproduction 13.5" AMD Ryzen™ 5 Microsoft Surface® Edition processor, 8GB RAM device. Testing consisted of full battery discharge with a mixture of active use and modern standby. The active use portion consists of (1) a web browsing test accessing 8 popular websites over multiple open tabs, (2) a productivity test utilizing Microsoft Word, PowerPoint, Excel and Outlook, and (3) a portion of time with the device in use with idle applications. All settings were default except screen brightness was set to 150 nits with Auto-Brightness disabled. Wi-Fi was connected to a network. Battery life varies significantly with settings, usage and other factors.

- Surface Laptop 4 15" with AMD Ryzen™ Microsoft Surface® Edition processor: Up to 17.5 hours of battery life based on typical Surface device usage. Testing conducted by Microsoft in February 2021 using preproduction software and preproduction 15" AMD Ryzen™ 7 Microsoft Surface® Edition processor, 8GB RAM device. Testing consisted of full battery discharge with a mixture of active use and modern standby. The active use portion consists of (1) a web browsing test accessing 8 popular websites over multiple open tabs, (2) a productivity test utilizing Microsoft Word, PowerPoint, Excel and Outlook, and (3) a portion of time with the device in use with idle applications. All settings were default except screen brightness was set to 150 nits with Auto-Brightness disabled. Wi-Fi was connected to a network. Battery life varies significantly with settings, usage and other factors.

- Surface Laptop 4 13.5" with Intel® Core™ processor: Up to 17 hours of battery life based on typical Surface device usage. Testing conducted by Microsoft in February 2021 using preproduction software and preproduction 13.5" Intel® Core™ i5, 512GB, 8 GB RAM device. Testing consisted of full battery discharge with a mixture of active use and modern standby. The active use portion consists of (1) a web browsing test accessing 8 popular websites over multiple open tabs, (2) a productivity test utilizing Microsoft Word, PowerPoint, Excel and Outlook, and (3) a portion of time with the device in use with idle applications.
